The new Eventa

DESIGNED WITH YOU AND YOUR HORSE IN MIND

For the first time ever your Ifor Williams Horsebox can be a home from home for you as well as your horse. The new Eventa range of horseboxes now includes fitted living accommodation options. We have built on our 50 years of experience producing the UK's best trailers to produce this exciting new range.

Listening to our customers

Before beginning the design and development of the Eventa, we took the time to listen to our customers to understand exactly what they wanted from this type of trailer. We spent five years carefully designing, testing and refining the trailer before we were completely satisfied that it would reach and excel your expectations.

The perfect trailer for your horse

We produce more horsebox trailers than anyone else in the UK. To see for yourself how popular our trailers are, just look around the car park at your next event. The horse compartment in the Eventa range has been carefully designed to ensure your horse travels safely and comfortably. Combining the much loved qualities of the Ifor Williams range, with continuous design improvements, ensures that you are towing a safe and strong horsebox trailer.

The perfect trailer for you

The living area in the Eventa range has been designed to offer the best possible levels of comfort and functionality. There are three levels of finish: Bronze, Silver and Gold. With Bronze comes seating for three, sleeping accommodation for two, a sink and plenty of storage space. The Silver finish adds a gas cooking hob. The Gold finish adds on-board 12v electrics, 50 litre water tank and a 12v electric water pump. The 12v electrics means you can add a host of additional options including electric fridge, hot water, TV and electrical flush toilet; it really is a home from home. As a further option the trailer can be supplied with no fit-out to the living area allowing you to customise this area yourself.

The Eventa comes in two sizes. The Eventa M is suitable for 2 horses up to 16.2hh whilst the Eventa L is suitable for 2/3 horses/ponies (can fit horses up to 17hh) dependent on weight. Moving away from traditional trailers the partitions for the horses are at a herringbone angle – widely used on horsebox lorries.

Finally, all our trailers undergo rigorous testing not only within our own test facilities but also at independent test tracks.

Eventa L gold trim with optional head locker

Eventa M with gold trim

Combining Strength, Stability and Style

As vehicle design has evolved over the years, so have our horsebox trailers. The Eventa range has smooth curvatures and stiff foam insulated side and roof panels which give good thermal insulation. The trailer is constructed with aluminium extrusions and has an aluminium clamping profile which provides structural integrity.

The Ifor Williams leaf spring suspension provides better shock absorption than rubber torsion suspension. It has been tried, tested and proven reliable – peace of mind when your horse is travelling.

Horse Area Features

A selection of the many features available in the Eventa.

Partitions and Head Partitions

Ifor Williams Trailers Partitioning System allows the horses to travel herringbone and saves wasted space between the last partition and the ramp doors. The innovative multi axis pivoting retainer arm and anti-rattle hook allows the partition to be hooked into position very quickly. The partitions are multi positional, so suit the size of horse and trailer weight distribution. Bungees are also attached to each partition to easily tie them back when horses are unloading. Partitions have clear PVC skirts.

Tack Locker and Storage Locker

Both models have external access tack lockers. The locker has room for 2 saddles with bridles. The Eventa M has an additional storage locker located on the horse area left hand wall. There is space here for feed, extra tack and also the gas bottle if fitted.

HB Roof and Ventilation

Composite material roof with large ventilation area for increased air circulation and natural light; in living area the roof vent has both a flyscreen and blind. In the HB area there are 6 roof vents for the larger model whilst the medium has 4.

Rubber Matting

Floors are covered with a 12mm thick rubber matting, providing a non slip surface with excellent vibration absorption.

Living Area Features

A selection of the many living area features available in the Eventa.

Sink

Manual tap with stainless steel sink and drainer. Electric tap (Gold trim) works off the on-board battery whilst the manual tap is pump action (Bronze and Silver trim). (Electric Taps shown).

Roof and Ventilation

Composite material roof with large ventilation area for increased air circulation and natural light; in living area the roof vent has both a flyscreen and blind.

Lockable Split Entrance Door With Window And Full Sized Flyscreen

Flush fitting locking mechanism, provides privacy for riders and their families. The insulated split door allows the top to be open when using the hob or for a breeze on a warm day and features a double glazed window with integrated blind.

Step into Living

Step has an anti-slip surface for extra grip.

Table

A dinette table which is repositionable for the sleeping arrangements or for a larger sitting area.

Seating and Sleeping

Can fit 3 people round the table and will sleep 2 adults comfortably.

Inspection Door Locks and Lockable Grooms Door

A tough nylon moulded door latch which is flush fitting with a smooth finish to prevent injury. Can be locked/unlocked from inside the trailer. (External grooms door fitted on Eventa M only. Internal grooms door on Eventa L).

Living Area Accessories

Just a few of the many accessories available for the Eventa.

Hob and Grill

"Mini grill" Spinflo Mk 3. 4 gas burner hob and grill. Standard in Gold trim.

Electric Fridge

Gas absorption, 12v or 230v hook up (3 way). This allows you to cool the fridge down using the electricity from home then travel to your event. It is a 60 litre fridge with 5 litre freezer compartment. Available in Gold trim only due to the electrical wiring used in the building of the trailer.

Hot Water

A 10 litre conventional boiler using gas to heat the water used in the living. Optional in Gold trim.

Heater

A concealed blown air heater; gas powered. Necessary for those cold, wet days. Available in Gold trim only.

Living Area Storage

3 drawers come under the grill. An extra drawer is fitted instead of the grill (Silver and Bronze trim). All over head lockers have a tall lip on them to prevent items falling out when door is open.

TV/DVD

18.5" 12v TV with built-in DVD, Freeview tuner and FM radio. Ensures you have the touch of home away from home. Available in Gold trim only.

Leather Upholstery

Optional extra instead of fabric in seating area for an added luxurious feel.

Electric Flush Toilet

12v battery supply is necessary for this. It is a fixed feature in the toilet compartment in Gold trim which also includes a sliding window. A manual flush toilet option is available.

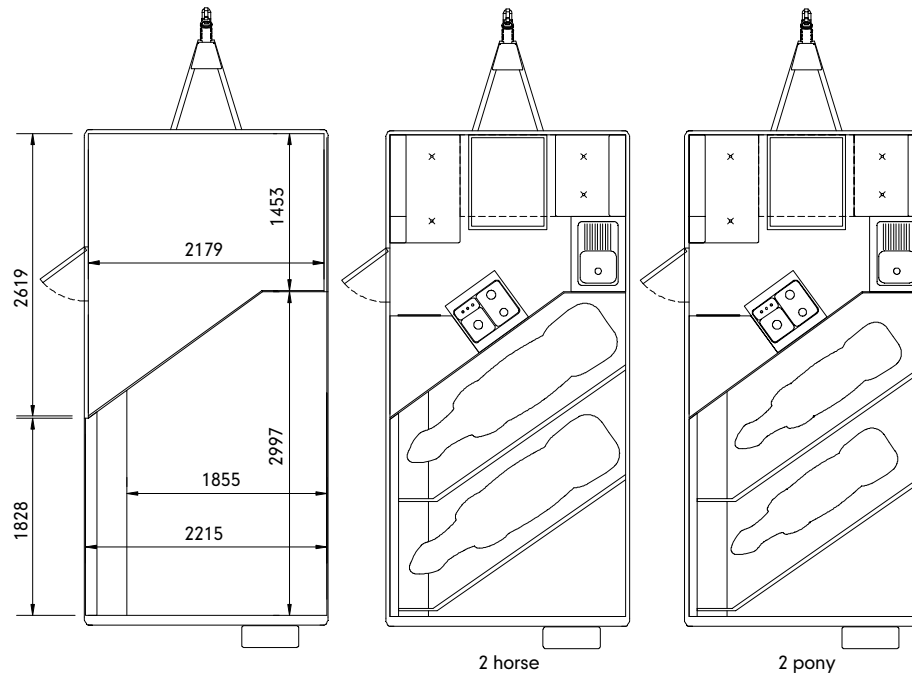

Eventa M

Tyres	195/60R12C
Maximum Gross Weight	3500kg

Finish Levels

The living area within the Eventa comes in four different finish levels, Base, Bronze, Silver and Gold.

Base trim is the most basic of the four models on offer with the living area completely empty; with vinyl flooring and front window as some of the factory fit options.

Bronze is fitted out with full furniture, with seating for 3 and sleeping for 2, table, cupboards and hanging space. Also included is extra storage instead of cooking facilities, use of a manual pump water tap with internal light powered from the car and amongst other options, a front window is available.

Silver, Bronze trim plus a gas powered 3 burner cooking hob with gas compartment.

Gold includes electric pumped water, gas and electricity, hob and grill, internal lights and 50 litre water tank. Optional extras include electric fridge, TV, hot water, heater, electrical flush toilet (a manual flush toilet option is available) and outside tap (wiring for which is only present with Gold).

**Dependent on weight and size of horse.

Specifications

THE IFOR WILLIAMS COMMITMENT TO TRAILER SECURITY

Each trailer is fitted with an ID plate which has a unique serial number etched on it. Additionally, the drawbar has a different unique number cut through it, which is virtually impossible to alter without noticeably affecting the appearance of the numbers and galvanised finish.

TER - THE NATIONAL PLANT AND EQUIPMENT REGISTER

When you register your new trailer it is automatically registered with TER (The National Plant and Equipment Register). Their mission is to combat plant theft and fraud in the UK and Europe. By registering ownership, both technical and marking details can be made available to international police forces through TER. All Ifor Williams Trailers include free registration to TER once your trailer is registered by your distributor. For further information on TER please see their web site at www.ter-europe.org

DATATAG

Datatag is Europe's leading electronic tagging system and was originally developed to combat theft in the UK motorcycle industry. Datatag transponders (tags) are miniature transmitters. These are hidden deep within the trailer during manufacture, and transmit a unique code that can only be read with special scanning guns. These are issued to Police and HM Customs free of charge. On recovery of a stolen trailer the identity of the trailer can be verified and the rightful owner contacted.

For further information on Datatag please visit their web site at www.datatag.co.uk

Datatags are fitted as standard to all Ifor Williams Horsebox trailers for extra security and peace of mind.
